Trợ lý AI hỗ trợ phân tích và tạo mã

*The AI Code Editor is a source code editor that integrates artificial intelligence, helping to automate repetitive tasks, support smart suggestions, and improve the programming experience.

*Cursor is an intelligent source code editor integrated with artificial intelligence (AI), providing an efficient and flexible programming experience. This is a tool designed to support developers from writing code, fixing errors, to optimizing workflows. With a user-friendly interface and powerful AI features, Cursor is becoming the top choice for programmers globally.

Some features of Cursor

Tab, Tab, Tab

Cursor lets you breeze through changes by predicting.

Chat

Chat lets you talk with an AI that sees your codebase. The chat can always see your current file and cursor.

Apply instantly

Get answers from your codebase or refer to files or docs. Use the model's code in one click.

Codebase knowledge

Cursor lets you write code using instructions.Update entire classes or functions with a simple prompt.

Multi-Line Edits

Cursor can suggest multiple edits at once, saving you time.

Smart Rewrites

Type carelessly, and Cursor will fix your mistakes.

Cursor Prediction

Cursor predicts your next cursor position so you can seamlessly navigate your code.
